

Additive Manufacturing (3D Printing) for Industry Masterclass

Future Skills

QGT-FUT-180 | Masterclass | 5 or 10 days | Online, classroom, in-house

Course overview

Additive Manufacturing (3D Printing) for Industry Masterclass is a senior-level masterclass on strategy and performance in Additive Manufacturing (3D Printing) for Industry. It covers the principles, the requirements of ISO/IEC 42001, ISSB standards, IEC 62443 and leading industry practice, and the practical methods used on site, with case studies from operations in the Gulf, Africa and worldwide. Available online, in the classroom in 60 cities, or in-house.

What participants will be able to do

- Explain the principles, terminology and scope of Additive Manufacturing (3D Printing) for Industry
- Apply the relevant requirements of ISO/IEC 42001, ISSB standards, IEC 62443 and leading industry practice
- Use practical tools, checklists and calculations with confidence
- Recognise common problems, risks and root causes and choose the right corrective action
- Build a business case and roadmap their leadership team can act on

Who should attend

Designed for professionals, managers and technical teams preparing for the technologies and jobs of 2030 in senior and leadership roles.

Course outline (5 days)

Day 1: Strategic view of Additive Manufacturing (3D Printing) for Industry

Trends, regulation and what leading companies do differently

Day 2: Benchmarking and performance

KPIs, maturity models and gap analysis

Day 3: Lessons from major incidents and projects

Decision points that changed outcomes

Day 4: Leading the change

Building the business case, budget and team capability
