

Financial Modeling in Excel

Finance & Accounting

QGT-FIN-105 | Foundation | 5 or 10 days | Online, classroom, in-house

Course overview

Financial Modeling in Excel is an introduction that builds a solid working knowledge in Financial Modeling in Excel. It covers the principles, the requirements of IFRS, IIA standards, COSO and GCC tax regulations, and the practical methods used on site, with case studies from operations in the Gulf, Africa and worldwide. Available online, in the classroom in 60 cities, or in-house.

What participants will be able to do

- Explain the principles, terminology and scope of Financial Modeling in Excel
- Apply the relevant requirements of IFRS, IIA standards, COSO and GCC tax regulations
- Use practical tools, checklists and calculations with confidence
- Recognise common problems, risks and root causes and choose the right corrective action
- Prepare an improvement plan for their own site or organisation

Who should attend

Designed for finance professionals, accountants, auditors and budget holders, new joiners and anyone who needs a solid grounding in the subject.

Course outline (5 days)
