

Medical Equipment Management: Practical Workshop

Healthcare & Hospital Management

QGT-HCM-129 | Practical workshop | 5 or 10 days | Online, classroom, in-house

Course overview

Medical Equipment Management: Practical Workshop is a hands-on workshop built around exercises and real site problems in Medical Equipment Management. It covers the principles, the requirements of JCI standards, WHO guidance and ISO 15189, and the practical methods used on site, with case studies from operations in the Gulf, Africa and worldwide. Available online, in the classroom in 60 cities, or in-house.

What participants will be able to do

- Explain the principles, terminology and scope of Medical Equipment Management
- Apply the relevant requirements of JCI standards, WHO guidance and ISO 15189
- Use practical tools, checklists and calculations with confidence
- Recognise common problems, risks and root causes and choose the right corrective action
- Prepare an improvement plan for their own site or organisation

Who should attend

Designed for hospital managers, quality coordinators, clinical leaders and healthcare administrators who want practice rather than theory.
