

Space Economy & Satellite Applications Masterclass

Future Skills

QGT-FUT-188 | Masterclass | 5 or 10 days | Online, classroom, in-house

Course overview

Space Economy & Satellite Applications Masterclass is a senior-level masterclass on strategy and performance in Space Economy & Satellite Applications. It covers the principles, the requirements of ISO/IEC 42001, ISSB standards, IEC 62443 and leading industry practice, and the practical methods used on site, with case studies from operations in the Gulf, Africa and worldwide. Available online, in the classroom in 60 cities, or in-house.

What participants will be able to do

- Explain the principles, terminology and scope of Space Economy & Satellite Applications
- Apply the relevant requirements of ISO/IEC 42001, ISSB standards, IEC 62443 and leading industry practice
- Use practical tools, checklists and calculations with confidence
- Recognise common problems, risks and root causes and choose the right corrective action
- Build a business case and roadmap their leadership team can act on

Who should attend

Designed for professionals, managers and technical teams preparing for the technologies and jobs of 2030 in senior and leadership roles.
